

Social Security Act

Our Mission:

To establish a system of benefits for the elderly, victims of industrial accidents, the unemployed, dependent mothers and children, the blind, and the physically handicapped.

Relief:

Our Program provides benefits for those who can no longer work due to old age, disability, or other disadvantages that deprive an individual of their independence.

Recovery:

Our Program enables those who cannot work (specifically the elderly) to have enough money through their lives.

Reform:

The Social Security Administration is a permanent solution to the problems faced by the disabled, the elderly, and the otherwise unable to work individuals.
